A Community Resource - Collaborating as a public and school library with programs like Upward Bound to support students with social, academic, and personal goals for a better life is one of the biggest ways to collaborate together and seek out students with community programs that make them stronger!

Delaware Tech's Upward Bound Math & Science Center is a pre-college TRIO program designed to motivate and prepare students in the program for the successful pursuit of a college education that leads to careers in the field of math and science. Upward Bound Math & Science Center provides students with academic support services to assist them in the successful completion of high school, engage and inspire students to explore the fields of math, science, engineering and technology, and ultimately graduate from a college or university.

Let your public and school library views be heard
through podcasts!

Due Knowledge is knowledge everyone can
benefit from and welcomes
everyone to come as you are
and have a say in what is important to them!

Here are some samples to give you some ideas:

Anchor podcasting platform with School and
Public libraries collaborating:

https://anchor.fm/harry-brake

and

Take advantage of Delaware State's SORA in every school by:

- Incorporating into classes during department meetings

- Connect with public Libraries/AP courses and summer reading requirements using SORA

- Create a summer reading program through the public library AND school library

- Find scavenger hunts during the year involving SORA and your school library!

6

Allow students to overview your school library and tie in your collaboration with you public library, many might not be aware!

Check out our six informative peeks from student Anjolie, our WHS student, about our own Library Media Center- and create your own Library YouTube Channel!

https://youtube.com/playlist?list=PLyvprsH291xGX5b2t08wTImeEF0tXrjUu

7

Creating a coffee/snack/morning refreshment bar – a place where students can get a cup of Hot Chocolate, listen and charge devices, grab a snack, and even get some tea, leftover breakfast / lunch snacks, and get help with last minutes critiques on their writing.

We call our student stop in, **The Daily Grind** and we provide mugs to students along with events happening at the Public Library!

8

Let students publish their views and thoughts on how they view and value their public and school libraries and ADVOCATE through Everylibrary.org, it is NOT just for adults, it is an opportunity for STUDENTS, PARENTS, and COMMUNITY MEMBERS!

https://medium.com/everylibrary

9

100% of this display was due to the thoughts, views, and ideas of STUDENTS!

Their involvement in public and school libraries helped them design how these ideas would fit this year's theme, how it would LOOK, and how it would REACH librarians!

Involve STUDENTS in conferences and presentations.

Way to go Allison, Anjolie, Hallie, Kaleigh, Olivia and Terrin!
